RG104 E-1 Box 142 Oct-Nove 1886

Mint of the United States at Philadelphia,

MELTING AND REFINING DEPARTMENT,

Philadelphia, 1st October —, 1886.

Sir,

I regret to report that the Vault, in which our Stock of Bronze Cents is stored, is now so full of the Copper Cent, the Bronze Cent, the Nickel Cent, and of fine Silver bars, that we can not put more of any kind of Coin or Silver bars into it. The last Silver bars were put there in July. —

Last evening Old Copper Cents, Bronze Cents, and Nickel Cents were put in there, until there is now barely room to get some things out of the vault, that are there, much less to put more in.

Some arrangement of a safe kind will have to be devised to accommodate more ~~Storage Stock~~, for we have this day on hand 1600 Silver bars, averaging about $1000 = each, making a total value of over $1,750,000 =.

Very respectfully

Ja. A. Booth

M. & R.

Hon. D. M. Fox,

Superintendent.
